Fix Authorization header to use Postman-vault-variable-syntax

Resolve model-terms-acceptance issue

model canopylabs/orpheus-v1-english requires your Groq org admin to accept its terms before it can be used via the API. Steps to fix:

1. Go to https://console.groq.com/playgr... as the org admin.

2. Accept the model terms when prompted.

3. Come back and resend this request — it should work once terms are accepted.
